Specialty Team Training Descriptions

Booty HIIT - A short but powerful workout designed to strengthen and sculpt your backside, increase metabolic rate with high intensity intervals and improve cardiovascular fitness. Bouts of hard work followed by short periods of rest will keep your body burning calories for hours to come and give you that extra pep in your step. While the booty is the focus, your core and upper body will not be left out. Progressions and regressions for all exercises will be provided though some cardiovascular endurance is recommended.

Boxing Fitness - Challenge your muscles and empower your mind with drills used by the pros. Punch and kick your way to a lean mean toned body. Feel invigorated and strong from this cardio and strength training workout!

H.I.R.T. - This “High Intensity Resistance Training” will blast you into the best shape of your life. If you are having a hard time with the last few pounds or just want to take your fitness to the next level, this is the training for you!

MRT - Metabolic Resistance Training is an intense strategy for increasing strength, torching fat and improving overall physical fitness. This circuit style training use various resistance training variables. Recommended for intermediate and advanced levels.

Pilates Equipment - Pilates conditions the entire body with a strong emphasis on the core. These low impact exercises will help you improve your strength, flexibility and joint mobility. Use the Pilates Reformer, Chair & Arc for an excellent full body workout.

Posture & Balance - If you suffer from back or neck pain, it may be due to poor posture. Improve your strength, flexibility, balance and confidence, while alleviating pain and risk of injury.

Run Strong - Depending on weather, a one to two mile run outside will be incorporated into a strength workout indoors. The treadmill will be utilized as necessary. This team training will increase cardiovascular and strength endurance. All fitness levels welcome, though a little running experience would be helpful.

Strength Intervals - Strength Intervals will be an exciting fusion of total body strength training and cardio intervals specifically developed to maximize fat loss and improve endurance and coordination. No matter where you are in your fitness journey this work out will give you the opportunity to propel yourself to the next level. All fitness levels welcome.

TRX Suspension - TRX allows you to unload and leverage your bodyweight while performing strength, balance, mobility and flexibility exercises. This enables you to instantly modify any exercise to your available range of motion or level of strength to safely get as strong, agile and powerful as you can be!
